SUMMARY

Computer Science graduate with hands-on experience in UI/UX, responsive web development, digital marketing and marketing analytics. Builds responsive interfaces, dashboards, websites, SEO workflows and analytics reports. Focused on creating user-centred digital products that bring together design, technology, data and business goals.

EXPERIENCE

Digital Marketing Intern — Noodhan Technology 2026

- Worked across website optimisation, SEO, content and digital marketing workflows.
- Improved website performance and search visibility using Google Search Console and related tools.
- Contributed to client-facing websites and digital marketing campaigns.

PROJECTS

Explain My Banking — Banking UX & Financial Explainability Platform
React · TypeScript · Tailwind CSS · AI-Assisted UX

- Designed and developed a banking UX prototype that explains month-over-month spending changes using transaction data and category-level insights.
- Built interactive financial dashboards with spending comparisons, transaction evidence and explainable insights.
- Improved financial transparency, accessibility and user understanding through clear interface design.

OpsPilot — AI-Powered Banking Problem-Solving Assistant
React · TypeScript · Tailwind CSS · Node.js · Express · xAI Grok API

- Designed and developed an AI-assisted banking support prototype that helps users investigate transaction issues and identify the right next steps.
- Integrated frontend and backend components with AI-generated responses and rules-based fallback handling.
- Implemented evidence-based explanations, server-side validation and confirmation flows for simulated high-impact actions.

Marketing Analytics Dashboard
Google Analytics 4 · Looker Studio

- Created an interactive dashboard tracking website traffic, user behaviour, engagement and conversions.
- Developed KPI views across Organic, Direct, Referral, Social and Paid traffic channels.

WordPress Business Website Development
WordPress · Elementor · Rank Math · WPForms

- Developed a responsive business website with structured navigation and a clear content hierarchy.
- Implemented SEO foundations and lead-capture workflows.

SEO Optimisation & Website Audit
Google Search Console · Google Analytics 4 · WordPress

- Optimised 15+ web pages for on-page and technical SEO.
- Improved content structure, metadata, headings, image alt text, crawlability and indexing.
